

RESCUE JUNIOR - Bill of Materials (BOM)

Team name: Antares

Quantity	Component	Author / Manufacturer	Description	Local Currency Name	Local Cost	Cost in USD
4	EV3 Large Motors	LEGO Education	Robot locomotion and movement	UYU	12000	300
2	EV3 Color Sensors	LEGO Education	Color detection, especially green markers and line tracking	UYU	2400	60
1	EV3 Brick	LEGO Education	Main robot controller	UYU	12000	300
1	Expansion Shield	DFRobot / Keyestudio	Adds digital and analog I/O ports and facilitates connection of multiple sensors to the Arduino	UYU	300	7
1	Arduino Nano	Arduino	Auxiliary microcontroller for sensor processing	UYU	400	10
1	QTR-8 Reflectance Sensor Array	Pololu	Reflectance sensor array for line detection	UYU	800	20
2	SG90 Servo Motors	TowerPro	Victim collection mechanism (gripper movement)	UYU	240	6
2	HC-SR04 Ultrasonic Sensors	HC-SR04 Manufacturer	Obstacle and ball detection	UYU	280	7
1	Custom Gripper Assembly	Antares Team	Custom-built victim collection mechanism	UYU	0	0
-	Communication Cables	Various Manufacturers	Communication between controllers and sensors	UYU	200	5
-	Miscellaneous Hardware Components	Various Manufacturers	Screws, nuts, beams, connectors and small components	UYU	400	10
Total Cost:					UYU 29,520	USD 733
